Band Aid Tag:

- In this variation of tag there's an "it" player along with two doctors.
- When players are tagged, they must cover the tagged spot with a "band-aid" (hand) and keep it there.
- If players are tagged a second time, they must cover that tagged spot with a second "band-aid" (the other hand).
- If players are tagged a third time, they become a patient and lay on the ground until the two doctors tag them at the same time to heal them.
- This tag variation can be pretty silly!
