

Playathon

Everyone Is It Tag:

- In this variation of tag, everyone is “it!”
- If a player tags another player, then that child lies on the ground.
- The child on the ground watched the player that tagged him and if that player gets tagged he’s back in the game.
- If two players tag each other at the same time, the tie is broken by playing Rock, Paper, Scissors.
- This game is nearly impossible to finish with a large group of kids, so it typically ends when there’s a certain number of kids still standing (around five kids).
